State At-Large Delegates and RNC Members	34
<u>District Delegates</u>	<u>42</u>
Total Delegates	76

Allocation of the State At-Large Delegates and the RNC Members

1. If a candidate gets majority of the statewide vote (50% + 1), the candidate gets all statewide delegates.
2. Candidates getting 20% or more of the statewide vote receive will be allocated delegates; an example is provided below.
3. If no candidate gets at least 20%, the threshold drops to 15%; if no candidate gets at least 15%, the threshold drops to at least 10%.
4. The three RNC members are included when calculating the allocation and are the first three delegates assigned to the statewide winner after allocation
5. Allocation of alternates corresponds to the delegate allocation; there are no alternates for the three RNC members.

Example:

Round #1

	% of State Wide Total	Delegate	Rounded
Candidate A	20%	6.8	7
Candidate B	25%	8.5	9
Candidate C	30%	10.2	<u>10</u>

Allocation Round #1 26

Candidate C	30%	2.4	<u>2</u>

Allocation Round #2 6

Remaining Delegates 2

Round #3

	% of State Wide	Delegate	Rounded
Candidate A	20%	0.4	0
Candidate B	25%	0.5	1
Candidate C	30%	0.6	<u>1</u>

Allocation #3 2

Remaining Delegates 0

Allocation of the District Delegates and Alternates

1. There is no threshold
2. If a candidate gets majority of the district vote (50% + 1), the candidate gets all 3 delegates (and the corresponding alternates).
3. If no candidate gets a majority of the district vote, the first place finisher in the district gets 2 delegates (and the corresponding alternates) and the second place finisher gets 1 delegate (and the corresponding alternate).
